Winter Weather Alert

Big and Little Cottonwood Canyon Roads are NO LONGER restricted to chains/4x4.

Snow showers are breaking up and mostly still exist in the Salt Lake and Utah Valleys.

There is road slush on the surface streets in the west and south areas of Salt Lake Valley and the northern part of Utah County, however the interstates are wet and there are no weather-related delays.

Snow showers have mostly stopped in Parleys Canyon and the road surface is wet. There are no weather-related delays. Park City surface streets are mostly just wet.

US-40, US-6 and US-189/Provo Canyon look mostly wet this morning and do not have any weather-related delays.
